

Hi Patrice,

Thank you so much for that wonderful session! First of all, the attendance was GREAT! all our chairs were occupied, and there were even people standing - so about 40 people!

You were not able to see the room, but the audience remained engaged throughout the whole presentation, were taking notes and jotting down everything you asked them to.

Even after the presentation ended and you signed out, they remained at the corner browsing our psychology section, trying to find the books you recommended.

Everyone enjoyed their time spent and left with a SMILE :-) Some even went into the near book store to buy their "happiness journals"!

Thank you so much for yet another successful event!

Wishing you a fun and happy weekend,

Nevenka

p.s. Keep us posted for your travel plans for May!
